COMPANY PROFILE

INFOACTIV IT AND ENGINEERING SOLUTIONS is a full-service TELECOMMUNICATIONS and ELECTRICAL firm. We specialize in the construction and design of telecommunication and electrical systems for institutional, commercial, industrial and service projects of all types and sizes, offering a full range of services from planning through construction. We've completed numerous projects in communities across the Philippines.

The Power to Do the Job Right

INFOACTIV IT and ENGINEERING SOLUTIONS experienced staff and engineers/ Lineman offers a broad range of capabilities under one roof, including:

SERVICES

TELECOMMUNICATION SERVICE: PABX-PSTN, Copper Network Expansion, VOICE-DATA Expansion, Fiber Optics Network, Wide Area Network, VOIP termination, Wireless Communications, Gigabit Networks, Asterisk VOIP Call Center Solutions, 911-System, Video Surveillance.

IT SERVICE: Server Setup, Server-Client side system, CADD Drafting, printing and conversion, Web hosting and Design, Online Database.

ELECTRICAL SERVICE: Line Construction, Banking Transformer, Pole Erection, Clearing, Installation, medium voltage distribution, emergency power generation, electrical controls and communication systems.

Our staff of highly qualified individuals offers a broad range of expertise in the design and installation of wiring and electrical systems for all types of projects: correctional, commercial and industrial projects. Our devotion to detail assures careful craftsmanship designed to make controls and designs user-friendly as well as innovative solutions to the unique challenges of each project.

The Experience to Meet Every Challenge

INFOACTIV IT and ENGINEERING SOLUTIONS project managers, electricians, Telecom engineers and support personnel have an average of 5-10 years of experience designing, engineering and installing electrical systems.

A Flexible, Client-Focused Approach

At INFOACTIV IT and ENGINEERING SOLUTIONS, we approach every project from your point of view. Our flexible, client-focused approach has paid off; more than 80% of our work is repeat business. We stress safety, convenience, innovation and flexibility to ensure your employees and our employees work in a safe environment with all of the resources they need -- and that you'll retain the flexibility to update and upgrade your systems as technology advances.

TELECOM CONTRACTOR AND CONSULTANCY, CABINETS_DLC, FIBER OPTICS, FUSION SPLICING, COPPER EXPANSION, CCTV, TELECOM SURVEY, INSTALLATION VOICE DATA, UNDERGROUND AND AERIAL CABLING INSTALLATION, ELECTRICAL GROUNDING AND WORKS
